BACKGROUND/PROBLEM STATEMENT:

WA State Conservation Districts do not have a stable and consistent funding source to meet local needs (outlined in Chapter 89.08 RCW). Reliance on competitive grant funding and highly variable state funding allocated by the legislature has hindered the ability of CDs to grow to meet increasing community needs and offer consistent programs and services to landowners and operators. Current flexible funding sources, such as Rates and Charges, have become politicized and inaccessible in some communities, and in addition have shifted the ability to prioritize community needs from CD Boards to local County government officials through the approval process. Current statute limits revenue based on arbitrary population thresholds, rather than community need/support or equitable distribution of available resources.

Competitive grant application development and management, along with Rates and Charges applications/renewals, take a considerable amount of CD resources and capacity that should be directed to on the ground conservation and serving community members.

WACD needs to establish and support a sustainable funding committee to review and develop identified and new opportunities for consistent and stable funding for CDs statewide.

PROPOSED RESOLUTION LANGUAGE: The WACD president establish (under Part X, §1 of the WACD by-laws) a permanent committee to review and develop identified and new opportunities for consistent and stable funding for CDs statewide. The sustainable funding committee will report progress and recommendations to the WACD board quarterly or as actions require. A progress report to the

membership will be made at least annually. (*Consider adding WACD as recipient of possible sources of revenue for distribution to CDs.*)
